CAREER OBJECTIVE

Aspiring Software Developer with a solid foundation in programming, web development, and analytical problem-solving. Dedicated to building efficient, user-friendly applications and contributing to innovative software solutions.

TECHNICAL SKILLS

- Programming Languages: Python, SQL
- Front-End Technologies: HTML, CSS, JavaScript, React.js
- Back-End Technologies: Django, Rest APIs
- Development Tools: PyCharm, Visual Studio Code(VS Code)
- Office Tools : MS Word, MS Excel, MS PowerPoint
- Soft Skills: Problem Solving, Time Management, Team and Collaboration, Adaptability

TECHNICAL TRAINING

Python Full Stack Development – Pentagon Space

- Completed training Python, HTML, CSS, Javascript, React.js, Django and Rest APIs.
- Gained practical experience in web application development using PyCharm and Visual Studio Code.

PROJECTS

Smart Eye for Blind People

- Designed an assistive system using ultrasonic sensors and Arduino to detect obstacles and alert users via buzzer signals.
- Enhanced obstacle detection accuracy and user awareness for visually impaired individuals.

Digital Door Lock System

- Developed an Arduino-based door lock using a keypad and servo motor for secure access control.
- Implemented password authentication logic to improve home security.

Student Enrollment System (React JS)

- Developed a responsive Student Enrollment Web Application using React JS.
- Designed and implemented user-friendly forms to capture student details such as name, course, department and email information.
- Utilized React components, hooks (UseState) for efficient state management and dynamic form handling.
- Implemented real – time data display by rendering enrolled student details on the UI.
- Styled the application using CSS to create a clean and interactive user interface.

INTERNSHIPS

- **Web Development Intern – Internpe**
- Designed and deployed responsive web pages using HTML, CSS, and JavaScript.
- Gained skills in responsive design and JavaScript-based interactivity.
- **Artificial Intelligence Intern – Rinex**
- Gained exposure to AI models, automation, and data-driven insights using Python.
- Worked on data analysis and machine learning model development using Python.
- Built predictive models and performed exploratory data analysis on real-world datasets.

CERTIFICATIONS

- NPTEL – Introduction to Industry 4.0 and Industrial Internet of Things
- Certified by Internpe – Web Development Internship
- Certified by Rinex – Artificial Intelligence Internship
- Attended Data Analytics Master Class (30 Days) by Novitech Pvt. Ltd.

EDUCATION

Qualification	Institution	Year	Score
B-Tech ECE	Rajiv Gandhi University of Knowledge Technologies, Ongole	2025	8.3 CGPA
PUC	Rajiv Gandhi University of Knowledge Technologies, Ongole	2021	9.21 CGPA
SSC	Zilla Parishad High School, Nallacheruvu	2019	10.0 CGPA

EXTRA CURRICULAR ACTIVITIES

Cricket and Basketball.

STRENGTHS

Adaptability, Flexibility, and Effective Time Management.

DECLARATION

I hereby declare that the above-mentioned information is true to the best of my knowledge and belief.
